Los Coyotes Indian Reservation, San Diego County– Winter Thunderstorm Flash Flood

On 04/11/16, as a result of rains and flash flooding on the Los Coyotes Indian Reservation in San Diego County, Cal EOC Mission Tasking number 2016-Southern-22320 was approved to address the community life safety needs, road repair, and other critical concerns in conjunction with FEMA, Bureau of Indian Affairs (BIA), Cal OES Southern Region, Cal OES Tribal Advisor, Caltrans Region XI, San Diego County OES and Los Coyotes Tribal personnel.

- Cal OES Tribal Liaison facilitates the daily conference calls with key stakeholders. [The conference calls will continue until further notice.](#)
- The Tribal Chairman is consulting with Bureau of Indian Affairs (BIA) regarding written plans for addressing the road repair including costs. [On 05/01/16, BIA indicated that when conducting emergency work, they do not have written plans/specifications but will provide the Chairman with a cost report.](#) The Chairman has also raised the need for an advance plan based on his concern of the road washing out and the reservation becoming isolated.
- [On 05/02/16, the Tribal Emergency Manager stated the tribe wants to move forward with a Presidential Declaration request because they are still in emergency mode until the road is repaired and the possibility of a secondary road is addressed.](#)
- [As of 05/02/16, BIA is on-scene with equipment and started the process of repairing the road. The repair will not require water to be shut-off. BIA reported the compaction of the underlying material will begin and will be expedited due to impending rain. Chance of showers with thunderstorms is expected Thursday night, 05/05/16 through Saturday night, 05/07/16.](#)
- [U.S. Army Corps of Engineers continue to work on the project information report which will include a preliminary hydrology study that addresses the adequacy of the culvert specifically the slope/drainage site to prevent erosion and scour in the future.](#)
